**“Cozy up This Fall” Showroom Culinary Event
at Gehman Custom Remodeling (GCR) Held to Benefit
the Philadelphia Ronald McDonald House**

Harleysville, PA - September 24, 2008 – With the fall season underway, an intimate group of local community members enjoyed nourishing fall comfort foods and an informative seminar on home energy efficiency at Gehman Custom Remodeling’s (GCR) “Cozy up This Fall” culinary event. The event took place on the evening of Thursday, September 18 at GCR’s showroom at 355 Main Street in Harleysville. The company’s intention to raise money for the Ronald McDonald House was fulfilled and will go toward supplying food to families staying at their facility.

At the cooking demonstration, participants learned cooking tips and feasted on hearty soups, pork and seasonal vegetable arrangements provided by Culinary Crossings of Harleysville and snack meats courtesy of Alderfer Meats in Harleysville. GCR President Dennis Gehman and Design/Build Consultant Philip Barbay discussed ways to create greater energy efficiency in the home. The two fielded questions from this “heated” discussion and explained such alternatives involving geothermal, tankless water heaters, and foam insulation – all of which are possibilities that homeowners are considering in reducing the impact of increasing energy bills.

“This event was especially driven by the determination of the homeowners to do all they can to conserve energy,” explained GCR President Dennis Gehman. “The good news is that there is so much that can be done to make our homes more energy efficient, both inexpensively and for a worthwhile investment.”
